THIRTY THOUSAND LIVES LOST AND A NUMBER OF TOWNS DESTROYED.

VALPARAISO, August 17, 1868. Since my last communication we have received very startling news from the swallowed up by the sea. At 9 o'clock on the night of the 14th inst., three strength until, after about thirty seconds, earthquakes were feit very sensibly, and isfied that a great earthquake was at sweep in a great wave over the town. Her plunge into ambitious schemes, isfied that a great earthquake was at the demand done will amount to 500. What a strange history that of the Mexthe damage done will amount to \$300,-000. At the approach of the sea the inthence witnessed the destruction of their property by the invincible enemy. In a It seemed in my own house as if the walls were about to meet and smother old position, but half the town was carried away and the remaining portion rendered almost uninhabitable. Provis-ions and stores of all kinds for the suf-

erers are pouring into the town. In Tome the same phenomenon took fall, almost all of them level with the place; the town, however, being some-

over. The debris of the Jesuit's Church was buried to a distance of one hundred supplies for the squadron. The Fredonia, as previously stated, was at Arion when the earthquake which caused such de-

cecurred. The following are the names of those who were aboard the Fredonia at the time she was destroyed; Oliver Crom-well, J. M. Hunt, Rudolph Bergstecke, Nicholas Schravesand, George Bender, Charles White, Sylvester Huggins, August Mulier, Simon Jaune, John Lam-ouck, John Smith, William Kreu, Henry Hasenburg, William Peterson, Richard Murray, Charles Haderborn, Jacob King, Peter Johnson, Henry Johnson (the lat-

possilation has perished. In Quito the also in the bay of Arica at the same time, leaux Bonnes in a few days. earthquake and its effects have been pro- and, although not destroyed, she has t was the most perfect picture of the much injured that the slightest move-It was the most perfect picture of the flood you can imagine; my hair was fairly standing on end. Everywhere isomentations and despair. Mothers seekment that it is much injured that the slightest movement will throw them down.

There are already in ruins the church and convent of San Augustin, the two fourteen gues, constructed of Irus, and the was prefect picture of the much injured that the slightest movement will throw them down.

There are already in ruins the church and convent of San Augustin, the two fourteen gues, constructed of Irus, and the slightest movement will throw them down.

This vessel was a side-wheel steamer of the water that it is questionable it she can be got afford again.

He was prefect picture of the much injured that the slightest movement will throw them down.

This vessel was a side-wheel steamer of fourteen gues, constructed of Irus, and the picture of the water that it is possed.

He was prefect picture of the much injured that the slightest movement will throw them down.

There are already in ruins the church and convent of San Augustin, the two fourteen gues, constructed of Irus, and the slightest movement will throw them down.

There are already in ruins the church and convent of San Augustin, the two fourteen gues, constructed of Irus, and the slightest movement will throw them down.

The was prefect picture of the water that it is questionable it she can be got afford again.

He was prefect picture of the succession and the succession Commander J. H. Gillis, was carried and and although not half a mile on land and although not accounted to the Herald in my last letter cave been corrected, the difficulties of gatting her to the ever recurring shorts in the official report as best to too captain in his official report as best to too difficulties of gatting her to the beach being almost insurmountable. The town was one great heap of the beach being almost insurmountable of the beach being almost insurmountable. The town was one great heap of the beach being almost insurmountable of the beach being almost insurmountable of the beach being almost insurmountable. The town was one great heap of the country of the beach being almost insurmountable of the beach being almost the beach being of the beach being almost the beach b

has, fortunately, been very small, but in other towns it is calculated that not less than 20 000 perished. The few who are left uninjured in these places have been unable to assist those remaining alive or dying under the ruins, and have been obliged to fly from the stenon of the dead bodies, which commenced to putrify and linvest the atmosphere.

Letters from Quito bring dates to the 19th, up to which time the earthquake continued at intervals of a few hours. It has been lungos-like yet to obtain data

rise." A good deal of inquisitiveness is from Quito. We have already heard of feet to discover what these real causes the death of the members of most of the were. A daily newspaper gives this expianation of them: During the voyage Archduke Maximilian made to Brazil, n 1859, he contracted a dangerous disease. He was unekilfully treated by his physicians, and he lost forever his virilty. His teeth became black, and his intoat became seriously affected. Nothng which could be done was able to arrest the progress of the disease, which contrived to undermine his life all the ime he was on the Mexican throne. The consequence of this disease was to make Arenduchess Charlotte virtually widow at the age of twenty. Her trength until, after about thirty seconds, the second of these agitated the sea to block home, hopsies of all change, made such an extent as to cause it to rise and ther plunge into ambitious schemes.

> can Emptre is! habitants, panic-stricken, fied to the half adjacent eminences, and from turn to Fontsinebleau from Chalous. On his arrival he took her hands and kissed her, and took the Imperial Prince in his arms and kissed him, and shook hands with all the Empress' retinue. She gave a large dinner party, engaged the Empress' Dragoons to execute a torch march-that is, a march in which each horseman escriesa torch, which produces a very fantastic effect, especially when the march takes place by the side of wa-ter and on the margin of woods. Her entertainment ended with fire-works.
